

PORNOGRAPHY vs. REAL LIFE

There is a really big difference between pornography and real life sex. Looking at the differences can help us to understand the difference between fantasy/make-believe sex and sex that is real. *We recommend completing this chart with a trusted adult.*

Complete this chart with the words found on the bottom of this page.

PORNOGRAPHY	REAL LIFE
Focus is on the mouth, anus, vagina, breasts and penis only	Focus on full body
Never-ending stamina	Ejaculation within 3 minutes (75% of all men)
Entitlement and control	Permission/consent
Painful	Pleasurable
No pubic hair	Pressure to remove pubic hair
High risk behaviours	Condoms used
Vulvas are identical	Various shapes, sizes, and colours
Orgasms from penis/vagina intercourse	71% of women don't orgasm from penis/vagina intercourse
Rape is normal	Rape is illegal
Unrealistic	Realistic
Permanent rewiring of the brain	Healthy brain development
Women want sex all the time	Depends on individual sex drive
Women like to be called a slut or a whore	Women prefer to be called by their name
Unusually large penis	Average size erect penis is 5-6 inches (87% are 6.3 inches or smaller)
